National Public Works Week

National Public Works Week is May 17 - 23. This year's theme "Rooted in Service, Powered by Community" acknowledges that the roots of service run deep in public works. It's what has propelled public works innovations that have helped our communities evolve in places where people can lead lives of purpose and possibility. Some work, like building roads and bridges, is highly visible, while other public works contributions, like maintaining water and sewer systems, are sometimes hidden from view. Together, these efforts form the foundation of thriving communities, reminding us that every project, seen or unseen, powers the connection between service and the people it supports.

Thank you to all of our Public Works staff: Foreman Kerry Prince, Assistant Foreman Deveryn Knox, Hunter Yanke, Jim Wowchuk, and Transfer Site Attendant Linda Schurko.
